

The **HARRISON** home plan by Simplicity

The 1573 square foot Harrison is an intelligently designed two-story home that lives larger than most mid-sized plans. The first floor is home to a spacious main suite with walk-in closet and dual vanity ensuite. The open living room is adjoined by the dining room and kitchen, which boasts ample counter space and cupboard storage. Near the entry is a convenient powder room for guests. Upstairs, two sizable bedrooms offer large closets and share the second full bathroom. An optional desk in the loft area offers convenience and organization.
