

The **ELITE**

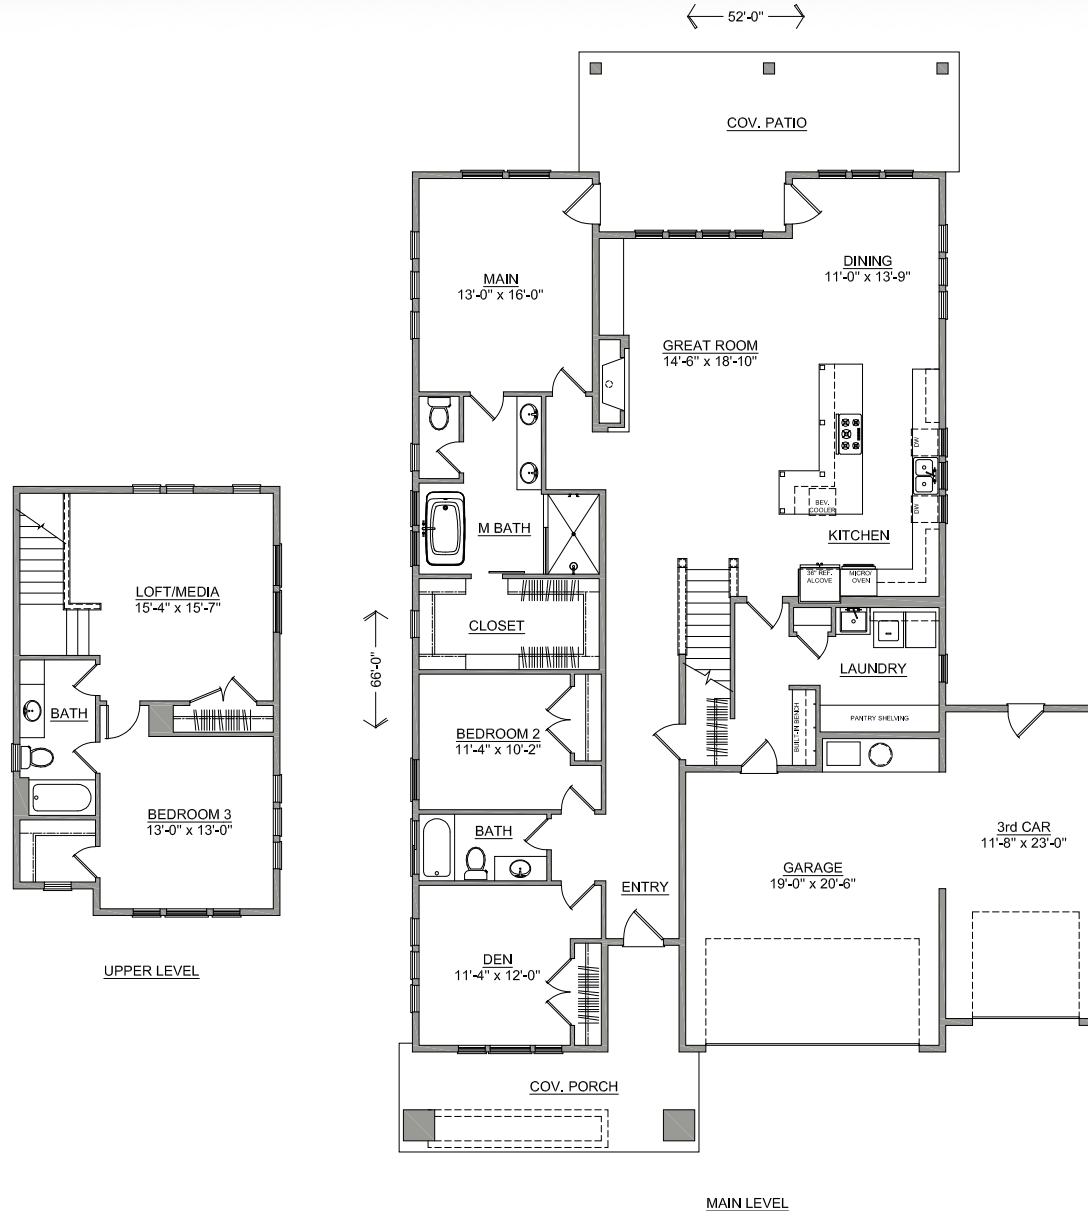

3 Bed + Den + loft | 3 Bath | 2733 Sq. Ft.

The 2733 square foot Elite home plan is both uniquely charming and visually arresting. Stepping through the front door, the dramatic hallway houses a den and bedroom, with a full bath in between. The fully-appointed kitchen has an L-shaped island with stovetop, extra counter and cupboard space as well as room to add any accessory imaginable. The great room features built-in cabinets surrounding a dramatic fireplace, vaulted ceilings, and a full wall of windows overlooking the oversized covered back patio. The main suite is another example of this home's impressiveness, with an extra-large closet, main bath with double vanity, soaking tub and grand shower. The spacious laundry room leads to the garage. Up the stairs are the loft/media room and junior suite.
